Paschal Chukwubuikem Ifewulu

IT Student & Editor

Motivated Computer Science student at Thomas More University of Applied Sciences in Belgium, specializing in Artificial Intelligence with a strong software engineering foundation. Skilled in Python, Java, and JavaScript, I build modern backend solutions with FastAPI, Laravel, Livewire, and PHP, and work confidently with MySQL and MongoDB. I enjoy developing scalable, AI-driven applications and bring a teamwork mindset, adaptability, and strong problem-solving. Always learning, I keep improving to stay current in tech.

Project

Bachelor of Applied Computer Science

September 2023

- **Full Stack Essentials:** Developed a [website](#), working on the Frontend and Backend of the website using SASS and Fast API.
- **Web Development:** an [application](#) made using laravel, livewire, php, tailwind and alpine
- **International Bootcamp:** Coached a growing micro-finance institute "NAGRO SACCO" in with the assistance of my senior coach in a school programme taken place in uganda, ran by [OVO\(Ondernemers voor Ondernemers vzw\)](#).
